Dr. Harmon C. McAllister
Associate Research Director
The Council for Tobacco Research USA, Inc.
900 Third Avenue
New York, New York 10022

Dear Mr. McAllister:

Plans are going well for the Fifth International Papillomavirus Workshop at Cold Spring Harbor. I have asked the Meetings Office to send you a registration form to be used by anyone in your organization. You should receive it shortly.

The program for the meeting is now finalized. The formal sessions will include: Human diseases and papillomavirus, animal diseases and animal papillomavirus therapies, transcription, replication, transformation, tissue specific papillomavirus expression, and advances in the study of papillomavirus proteins. There will be poster sessions related to each of these lecture sessions. In addition, there will be two workshops of one hour each, entitled "Pathology for the Molecular Biologist" and "Molecular Biology for the Clinician". These will be held at the beginning of the conference.

It is the policy of Cold Spring Harbor not to release the actual program in advance of the meeting. However, I do believe they will not object to my providing you with a list of the sessions. In addition, I am sending you a final list of the invited speakers who have accepted. As you can see, this is truly an international conference. In addition to the invited speakers, there will be approximately 30 additional speakers chosen on the basis of abstract content.

We anticipate a fruitful and productive conference, and appreciate the support of the Council for Tobacco Research.

Yours truly,

Bettie M. Steinberg
